WHY WE EXIST

Tathastu Techno Solutions, Sparked in 2017 by a groundbreaking mission: to empower the Indian Media and Entertainment, AEC, Education and Manufacturing industry with cutting-edge solutions. Led by the stalwart Mr. Chetan Jain, a 19-year veteran in the field, our team is passionate about making a lasting impact. We partner with industry giants like Maxon, Vectorworks, Adobe, and others ensure access to cutting-edge software solutions. As your trusted hardware partner, we collaborate with HP, Dell, XP PEN, and more to enhance your digital capabilities to bring you the top-tier software and hardware needed to turn your creative vision into reality. Whether you're an animation studio, architect, or solopreneur, we have the tools to elevate your digital experience. Join us and let's craft something remarkable together.

OBJECTIVE

At Tathastu Techno Solution we believe in connecting the resellers and customers, to help them achieve their objectives with the use of the latest software & hardware solutions, regardless of the size. We aim to deliver satisfaction, affordability and prompt media and entertainment solution, turning your ideas into stunning animations

VISION

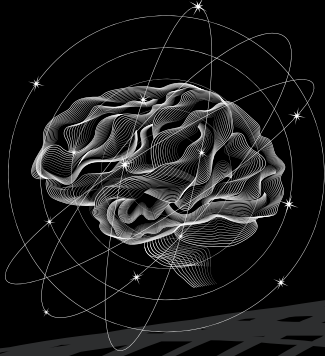

We are committed to bridging the gap between resellers and customers, ensuring that businesses of all sizes can achieve their objectives with the latest technology. By delivering, optimised solutions, Seamless integration and required services, we transform your ideas into stunning realities, driving success across every sector we serve.

MISSION

Transforming ideas into captivating solutions with unmatched expertise. Building lasting client partnerships, unlocking new possibilities with ease, and driving collective success at Tathastu

THE BRAIN BEHIND THE INNOVATION

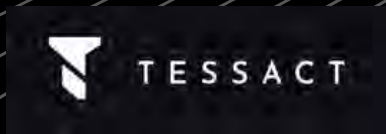

CHETAN JAIN
Founder & CEO

LEENA JAIN
COO

With over 19 years of experience, **Chetan Jain** has demonstrated exceptional expertise across multiple industries and product lines, specializing in Media and Entertainment Solutions. He has successfully led technology projects, expanded into new markets, built high-performing teams, and cultivated trusted relationships with customers and resellers

Leena Jain began her journey as a dedicated homemaker, mastering the art of multitasking, budgeting, and problem-solving in the heart of her home. Today, she's the dynamic COO where she channels those same skills into driving operational excellence and leading her team with empathy and precision. Her story is a powerful reminder that the skills nurtured at home can pave the way for remarkable success in the corporate world

OUR ESTEEMED PARTNERS

SOFTWARE

HARDWARE

Hewlett Packard Enterprise

OUR SOFTWARE SOLUTIONS

MAXON

Maxon empowers creative visions with a potent toolkit, enabling the creation of stunning VFX, lifelike character sculpting, professional broadcast graphics, industrial visualization, and seamless editing using tools like Cinema 4D, Redshift, and ZBrush.

VECTORWORKS

Vectorworks provides exceptional design tools for absolute creative expression and maximum efficiency. Offering freedom throughout the design process, it allows seamless sharing of visions and smart decision-making at every phase.

INSTALOD

Revolutionize your business game with InstaLOD! Say farewell to those tough, dreary data preparation workflows. InstaLOD makes it a breeze by serving as the one-stop-shop for all your CAD, Scan or 3D data needs. And that's not all! It's like having an automated superhero by your side, retargeting your data to fit perfectly with any business case. Say hello to cost-effective processing, and goodbye to tedious manual work

RE:Vision Effects

With over two decades of experience, RE:Vision Effects specializes in software tools for motion picture and video artists, showcasing expertise in video image processing, 2D and 3D graphics, and stereo 3D algorithms

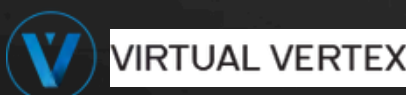

BORIS FX

Boris FX is a leading developer of visual effects, planar tracking, titling, and video editing tools for broadcast, post-production, and film professionals, providing essential solutions for seamless workflow.

NEWBLUE FX

NewBlueFX offers intuitive post-production plugins and live graphics solutions, simplifying complex editing tasks, adding engaging effects, titles, and transitions for premium content creation, both in post-production and on the fly.

VIRTUAL VERTEX

Virtual Vertex's render farm management software, Muster, supports over 72 render engines for film production, game development, and visual effects. It efficiently manages rendering processes across different platforms

NEXT LIMIT

Next Limit, a creative industries leader, develops simulation and visualization solutions like Maxwell, RealFlow, XFlow CFD, RoomBox, and Anyverse, gaining a worldwide reputation for their quality technologies.

UNITY

Unity empowers the creation and growth of real-time 3D games, apps, and experiences across various industries, offering tools for asset importation, coding, animation, and real time visualization.

SITNI SATI

Sitni Sati is a visual effects software company creating cutting-edge technologies for demanding production environments. Their tools enable artists to create realistic effects, including fire, smoke, explosions, particle systems, and more.

ADOBE

Adobe is a global leader in digital experiences, providing software for graphics, photography, illustration, animation, multimedia, and more. Flagship products include Photoshop, Illustrator, Acrobat Reader, and tools for audio-visual content creation.

KEYSHOT

KeyShot simplifies 3D rendering and animation with a user-friendly interface. It provides fast material and lighting application, delivering accurate material appearances and real-world lighting in real-time.

CHAOS ENSCAPE 3D

Enscape 3D offers real-time visualization for Revit, SketchUp, Rhino, ArchiCAD, and Vectorworks, simplifying design workflows and providing a clear understanding of visualizations.

MARVELOUS DESIGNER

Marvelous Designer is the premier solution for making, editing, and reusing 3D clothes. It streamlines the process, allowing users to create intricate custom outfits with just a few clicks.

VIDEO COPILOT

Video Copilot collaborates on training, design tools, and artists' resources, developing innovative tools like Element 3D and Optical Flares. These solutions enhance production quality and speed, offering freedom and flexibility to creators.

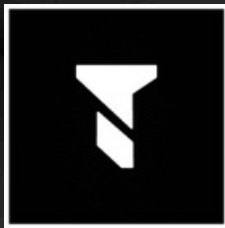

TOON BOOM

Toon Boom Animation Inc.'s award-winning software sets the global standard for 2D animation and storyboarding, empowering creators with the artistic freedom to bring their visions to life in any style while streamlining the publishing process for maximum efficiency. Toon Boom's solutions cater to everyone from passionate enthusiasts to seasoned professionals, making it the go-to choice for animation excellence worldwide.

SOLIBRI

Solibri, Inc. is a globally recognized leader in Model Checking Software for Building Information Modeling (BIM), offering innovative solutions that analyze and validate the quality of BIM-based designs. By enhancing productivity and streamlining the design process, it empowers professionals to achieve greater efficiency and precision in their projects. As the world's leading out-of-the-box solution, Solibri automates the Model Checking of BIM files, enabling seamless review, quality assurance, detailed analysis, and compliance with industry codes, setting the benchmark for excellence in the field.

TESSACT

Tessact is an advanced AI system for comprehensive video content analysis and management. Utilizing sophisticated deep learning algorithms, it provides in-depth understanding of visual and audio elements within a contextual framework. Tessact AI facilitates automated editing, bespoke content creation, precise metadata extraction, and strategic monetization. This technology is designed to elevate and streamline video production processes for discerning media professionals.

BLUEBEAM

Bluebeam redefines innovation by delivering smart, intuitive solutions that enhance project efficiency and collaboration for design and construction professionals across the globe. By advancing how industry experts work, manage, and collaborate on projects digitally, Bluebeam empowers teams to streamline workflows, improve productivity, and achieve exceptional results in the ever-evolving world of design and construction..

SideFX

For over thirty five years, SideFX has provided artists with cutting edge procedural 3D animation and visual effects tools designed to create the highest-quality results. We are passionate about what our customers do because our roots are in production, both as artists and as pioneering technical innovators.

OUR HARDWARE SOLUTIONS

HP

HP offers a diverse product and service portfolio, including personal systems, printers, and 3D printing solutions, catering to various technological needs.

Hewlett Packard Enterprise

HEWLETT PACKARD ENTERPRISE

Our HPE accelerates business outcomes in a connected, data-driven world. With a focus on data-first approaches, HPE Green Lake brings the cloud to users, creating unique advantages with AI and enhancing safety and security.

Dream · Brave · True

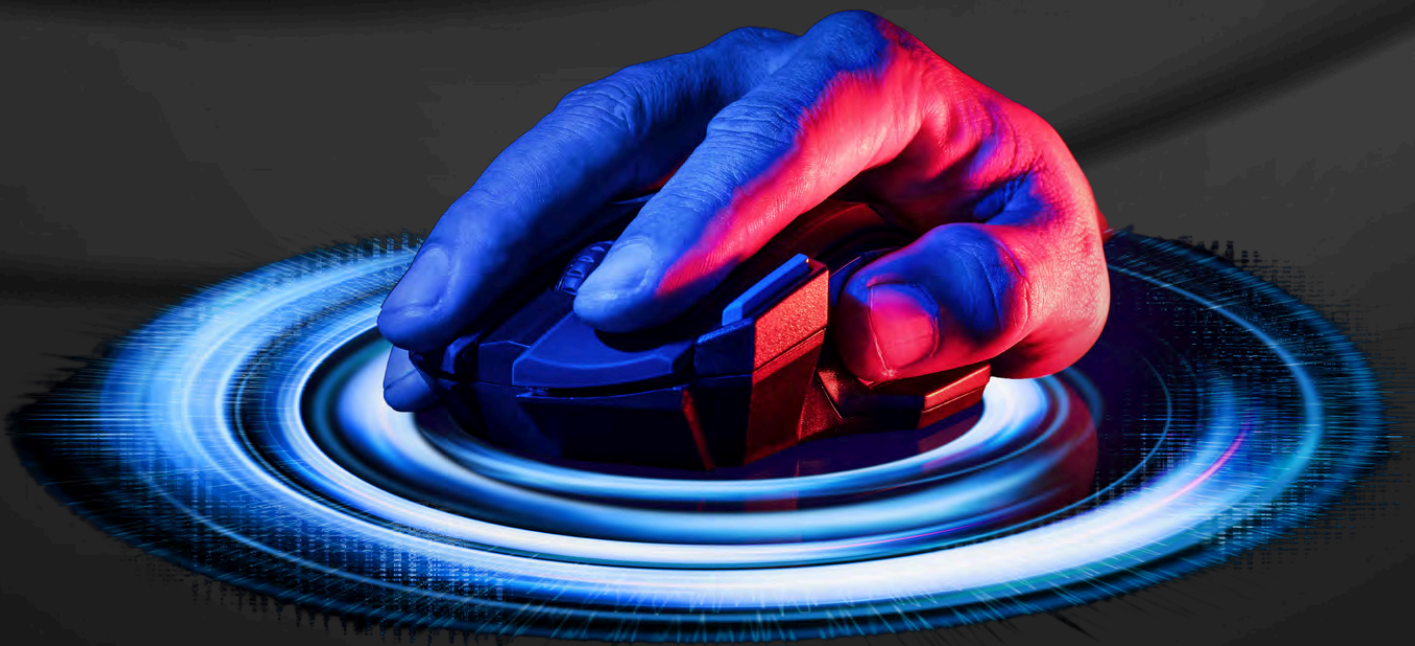

XP PEN

XP Pen is a reliable supplier of graphics tablets, pen display monitors, stylus pens, and other digital graphical products, fostering innovative and trendy tools to inspire the new generation of artists.

DELL

Dell is a leading provider of computers, related products, and services, contributing to technological development, repairs, and support for a wide range of user needs.
